

WE ARE ALL ERGONOMICS

Lucy Mara Baú ^{1*}

Eduardo Ferro dos Santos ²

At our Annual General Meeting, held on December 11, 2020 in São Paulo, the election of ABERGO's New Board of Directors for the 2021-2023 period was ratified. The elected Slate was "We Are All Ergonomics", to which we present the new members here.

According to the commitment made in our work plan, our performance will be guided by strengthening the participation of individual members of ABERGO and the interest of the community in having ABERGO as a legitimate interlocutor with development agencies, teaching and research institutions, corporations, regulation and regulation.

In addition to this commitment, we have others that arise as challenges in our new work formats, such as organizing the CBE – Brazilian Congress of Ergonomics, which will become annual, starting the SERERGO – Regional Seminar on Ergonomics, continuing the ENERGO – Brazilian Ergonomist Certification Forum, promoting Scientific Education with the publication of the Ergonomic Action Magazine, the launch of collections of Books and Case Reports in digital format, the development of a new Home Page that is more interactive with the member and with society, in addition to other actions aimed at strengthening teaching, research and practices of Brazilian ergonomics. Together we will make a stronger Ergonomics and with respect for individual and collective action, with contribution and collaborative construction, without ever leaving our history behind.

In this year 2021, we will seek together to minimize the consequences of the Covid-19 pandemic, the stability of everyone's health and safety, and advance in an integrated way with technological and sustainable development. We will seek to broaden the debate around the working class and the contribution to business organizations with the guarantee of healthy, safe and productive work. That is our role.

We hope to count on our members who have always been integrated into ABERGO and with those who want to join, returning as an associate, or as a new associate. Our challenge will be immense, and we need to be together and seek in each one the participation in the construction of this new era, called by some the new normal, which although it is not normal yet, already needs us professionals who are increasingly connected and focused on the human being.

¹ Presidente da ABERGO. * lucybau@gmail.com.

² Secretary Director of ABERGO.

We then present the composition of the New Executive Board, according to ABERGO's bylaws:

Lucy Mara Baú

President

Professor and Coordinator of the Department of Ergonomics at Faculdade Inspirar. Director of Ocupamed. Master in Production Engineering, Graduation in Physiotherapy. Specialization in Occupational Physical Therapy and Higher Education Methodology.

Eduardo Ferro dos Santos

Secretary General

Professor at the University of São Paulo, at the School of Engineering of Lorena. Master and Doctor in Production Engineering, Graduation in Mechatronics Engineering and Physiotherapy, Specialization in Quality and Productivity and in Occupational Safety Engineering.

Rosimeire Sedrez Bitencourt

Treasurer

Professor at PUC Paraná, Master and PhD in Production Engineering, Degree in Computer Science, Specialization in Informatics.

Nilton Luiz Menegon

1st Substitute

Professor at the Federal University of São Carlos, Master and Doctor in Production Engineering, Degree in Mechanical Engineering, Specialization in Hydraulics.

Antônio Marcio Moreira

2nd Substitute

PRODERG Director, Master in Ergonomics, Industrial Designer, Specialization in Ergonomics

During the Administration, the Executive Board is supervised by the Fiscal Council, composed of:

Paulo Antonio Barros Oliveira

Counselor

Professor at the Federal University of Rio Grande do Sul, Retired Labor Auditor, Master in Education, Doctor in Production Engineering, Degree in Medicine, Specialization in Occupational Medicine. He was President of ABERGO in the 2015/2017 and 2018/2020 Administrations

Vilma Villarouco

Counselor

Professor at the Federal University of Ceará, Master and PhD in Production Engineering, Degree in Architecture and Urbanism.

Márcio Alves Marçal

Counselor

Professor at the Federal University of the Jequitinhonha and Mucuri Valleys, Master in Ergonomics and Doctor in Occupational Biomechanics, Degree in Physical Therapy, Specialist in Occupational Physical Therapy.

Raoni Rocha Simões

Substitute

Professor at the Federal University of Ouro Preto, PhD in Ergonomics and Work Organization, Master's Degree in Labor and Society Sciences, Degree in Physical Therapy and Production Engineering, Specialization in Ergonomics

José Orlando Gomes

Substitute

Professor at the Federal University of Rio de Janeiro, Master, Doctor and Graduate in Production Engineering, Vice-President of the International Ergonomics Association. He was President of ABERGO in the 2010/2012 and 2013/2015 Administrations.

Our Administrative Headquarters remains firm and strong in Rio de Janeiro with our dear secretary.

Valéria Barbosa

Secretary

Secretary of ABERGO, assigned to ABERGO's headquarters.

Let us continue the Mission, since the time of our first president Itiro Iida, who had in his management illustrious and notorious ergonomists such as Reinier Rozestraten, the first vice president, our late Anamaria de Moraes, as administrative director, Leda Leal Ferreira, as financial director, and the late João Bezerra de Menezes, as technical director.

Let's go ahead, we are all ergonomics.
